

SWIDGET®

POWER TO LIVE SMART

Smart Home Inspiration Guide

Experience the freedom of truly smart living.

Introducing Swidget

The smart technology that brings your home to life.

Are you ready to **transform your house into a smart home** that understands and adapts to your unique needs and lifestyle?

Swidget offers a wide variety of smart solutions including:

- Ventilation solutions that keep your home healthy
- Energy management solutions to reduce your utility bills
- Safety solutions to protect your home
- Security solutions to protect the ones you love

And so much more!

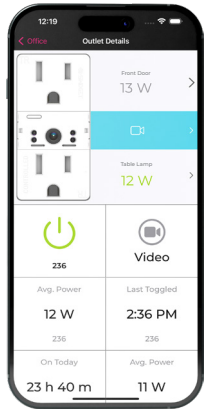

Whether you're moving into a new home or renovating your space, Swidget's got you covered.

HOW IT WORKS

1. Choose your Swidget wiring device.
2. Choose your Swidget smart Insert.
3. Pair and automate your solutions.

BENEFITS OF SWIDGET

- **Variety** of smart sensors and convenience Inserts.
- **Flexibility** to swap the Inserts out as your needs change or as technology evolves.
- **Wireless** smart sensors that provide real-time data and reduce clutter.
- **Battery-less** Inserts powered from your Swidget Outlets and Switches.
- **Simple installation** so your products work right, right away.
- **Customizable** triggers, alerts, and automations, so your products can adapt to your life.
- **Privacy** policies and practices that keep you in control over your data.

Use this guide as inspiration to create your own customized smart home experience, with solutions that blend seamlessly throughout your home and effortlessly into your life.

- Safety & Security
- Asset Protection
- Health & Wellness
- Timer

Look for these icons on each page to understand the control benefits each solution provides. Follow the QR Code for a full list of Control Highlights applicable to each Insert.

SWIDGET INTEGRATIONS

Swidget recognizes the importance of offering flexible connectivity options and interoperability with other smart systems. We are committed to providing users with the most seamless smart home experience possible.

- **Communication Protocols:** Both Wi-Fi and Z-Wave enabled smart Inserts are available.
- **Voice Control:** Voice Control: Available through Google Home and Amazon Alexa integrations, with additional sensor data relay information available.
- **Third-party integrations:** Integrations with leading smart home automation platforms including Control4, Nice, and Home Assistant are available. Swidget also works with IFTTT.
- **Local API:** Using Swidget's easy and intuitive local API, custom integrations can be built for applications that are not yet supported with system-specific drivers.

Our development and support teams are continuously working to create new integrations and provide Swidget users with an unparalleled smart home experience.

Coming soon

Empower your home to protect your loved ones.

HAVE YOU EVER...

- Wished you could **receive real-time alerts while you are away when presence is detected** in your home?
- Wanted a security solution that was **discreet and affordable**?
- Wanted to **control your porch or perimeter lights** based on movement or time of day?

Entrances/Exits

On/Off Switch + Motion Sensor

Keep your family and home protected with smart presence detection.

Swidget motion sensors double as a security sensor to alert you when the kids return home safely after school, or when an intruder is in your home.

Take your home security a step further by programming perimeter lights, creating schedules, or triggering other actions and alerts based on presence detection. Swidget keeps you safe and protected.

Empower your home to provide a helping hand.

HAVE YOU EVER...

- Accidentally injured yourself when entering your dark home because you **weren't able to turn on the lights**?
- Wanted a **hands-free lighting solution** that would turn on when you entered your home and turn off after you left?

Front Hall

On/Off Switch +
Motion Sensor

Hands-free convenience with smart lighting solutions.

Whether your hands are full with groceries or little ones, Swidget's smart presence sensors work hard so you can keep your hands on the things that matter most.

Enjoy the convenience of hands-free lighting solutions that turn on and off intuitively.

Empower your home to protect you from mold and mildew.

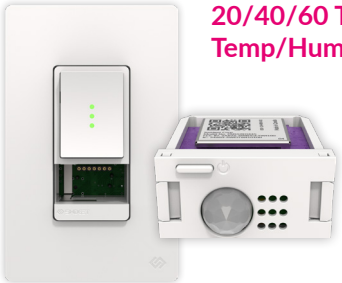

DID YOU KNOW?

- Over **20L of moisture** is added to the indoor environment in a typical home every day.
- High levels of moisture encourage **dust mites and mold growth**, leading to an increased risk of respiratory issues.
- According to the EPA, approximately **20% of households** have someone with asthma, allergies, or respiratory problems.
- Dampness will **degrade building materials** in your home, which can lead to costly structural damage.

Bathroom

20/40/60 Timer Switch + Temp/Humi/Motion Sensor

Protect your home and your health, without lifting a finger!

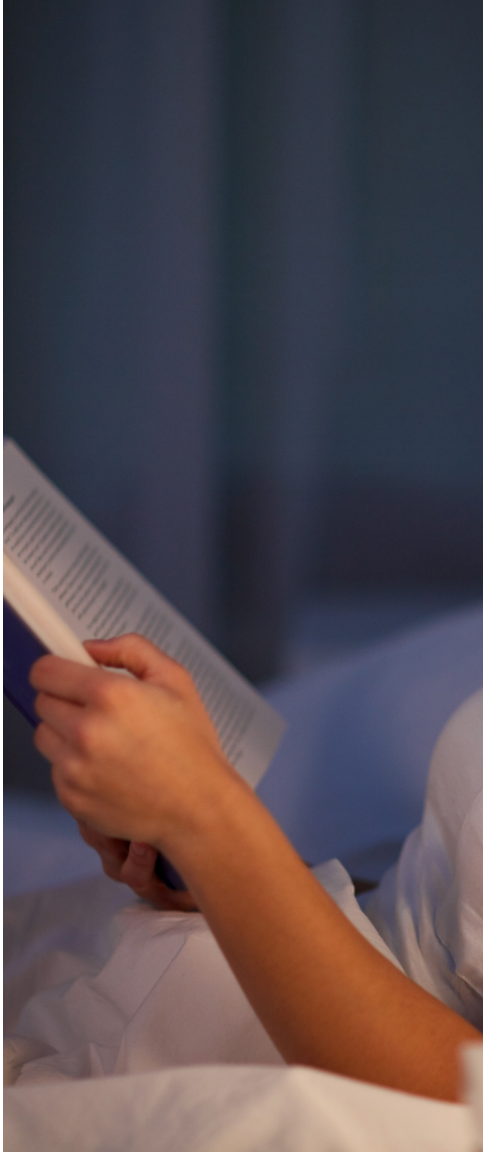

Our unique Swidget technology will automatically turn on your bathroom fan when it senses you're taking a bath or shower, protecting you and your home from the health and structural issues that come from mold and mildew.

Our smart solutions learn their environments and automatically control your ventilation products seamlessly and in the background.

Empower your home to create a healthy environment.

DID YOU KNOW?

- High particulate matter levels are a **key contributing factor to poor air quality**.
- Poor indoor air quality conditions can lead you to breathe in **airborne pollutants** such as dust, ash, soot, smoke, aerosols, fumes, mists, and condensing vapors in your home.
- We take in approximately **21lbs of air** and more than **20,000 breaths** a day.

Bedroom

15A Outlet +
Air Quality Sensor

Ensure the air you breathe at home is free from pollutants.

Take clean indoor air one step further with this innovative air quality monitoring solution.

Use the sensor to automate and optimize your your home's ventilation systems for healthier, cleaner air, ensuring a better and more refreshing night's sleep.

Empower your home to ensure you are breathing clean, fresh air.

DID YOU KNOW?

- Indoor air can be **5x more polluted** than outdoor air, and 90% of our time is spent indoors.
- Homes constructed today let in **significantly less fresh air** than those constructed 10-20 years ago.
- Today's homes are filled with **pollutants and toxins** that come from building materials, cleaning products, and from cooking.
- **60% of homes** have poor air quality that causes or aggravates respiratory problems.
- Poorly ventilated indoor spaces can have a **negative impact on cognitive functionality**.

Kitchen

Dimmer Switch +
Particulate Matter Sensor

Breathe air that's as healthy as (or healthier than) your cooking!

Keep your family breathing healthy air with this sensor that detects harmful particulates caused by cooking, cleaning products, and more.

Automate your ventilation solution and exhaust your home's polluted air so whether you cook a 5-star meal or burn toast, you can be sure that the air in your home always remains fresh and healthy to breathe.

Empower your home to keep an eye on what's important.

HAVE YOU EVER...

- Wanted a **baby monitor solution** that was reliable, affordable, and easy to set up?
- Wished you could **virtually check in on your home** when you were out of town without installing an extensive and obtrusive security system?
- Wanted to **check in on your beloved pet** while you were away from home?

Nursery

Dimmer Switch +
HD Camera

Keep an eye on important faces and important places.

Whether you need a nanny cam, a pet cam, or want to monitor your empty spaces while you're away, Swidget's wireless, battery-less video camera offers a hassle-free security solution that can be conveniently installed anywhere in your home.

Let Swidget provide the peace of mind you need.

Empower your home to provide convenience wherever and whenever you need it.

HAVE YOU EVER...

- Been unable to plug in a device because you **didn't have a free outlet**?
- Been relaxing in the living room and wanted to **charge your phone nearby**?
- Wanted a **convenient place to charge** your important electronic devices besides the bedroom?
- Not been able to charge your phone because you **didn't have a charging brick** nearby?

Living Room

20A Outlet +
USB-C Charger

Convenience whenever and wherever you need it.

In today's connected world, you can never have too many USB chargers!

Enjoy the added convenience of USB charging ports throughout your home without the need of a charging brick, so you've always got power when and where you need it.

Empower your home to save energy and money.

HAVE YOU EVER...

- Walked out of your home office after a long day of work and **forgot to turn off** your monitor?
- Had to **remind your kids** or partner to turn off ceiling fans or other energy-consuming devices when leaving a room?
- Received an **energy bill that was higher** than expected?
- Evaluated whether your home appliances (like TVs, microwaves, or gaming systems) were **using significant power even when they were "off"**?

Home Office

15A Outlet +
Power Control

Save energy and money with smart sensing.

With real-time power monitoring and accurate cost predictions, you can monitor and reduce your energy usage to keep more money in your pocket.

Set customizable smart rules to ensure your lights stay on only when you need them, and turn off even if you forget to flick the switch.

Empower your home to detect and warn you of invisible toxins.

DID YOU KNOW?

- High CO2 levels in confined spaces can lead to **decreased cognitive function, drowsiness, and headaches**.
- Common sources of CO2 in a home besides respiration include **unvented fireplaces, space heaters, and other fuel-burning appliances**.
- **CO2 can be an indicator** of a fire, even before visible smoke appears.

Family Room

Dimmer Switch + CO2 Sensor

Protect your family from dangerous invisible toxins.

Use this multi-functional sensor to measure carbon dioxide concentration, temperature, and humidity.

The sensor can relay this information to the Swidget app or other connected control systems like Amazon Alexa or Google Assistant, in order to ensure optimal environmental conditions within your home.

Empower your home to keep your family safe and comfortable.

HAVE YOU EVER...

- **Accidentally injured yourself** while walking down a dark hallway in your home?
- Had to wake up in the middle of the night to comfort your child who is **afraid of the dark**?
- Needed to use the washroom at night but didn't want to be **blinded by the bright lights**?
- **Tripped on the stairs** because they weren't well-lit?

Hallway

15A Outlet + Guide Light

Stay safe from tripping hazards...and monsters!

Swidget's Guide Light Insert turns on automatically at night when the lights in your home are off.

Avoid nighttime tripping hazards by placing guide lights along your hallways or stairs, or use them as a night light in your child's room, to keep nightmares and monsters away!

Empower your home to keep you safe during emergencies.

HAVE YOU EVER...

- Experienced a power outage at home and been left in **complete darkness**?
- **Not had emergency light sources** such as candles or flash lights easily accessible during a storm or power outage?
- Had emergency lights at home that didn't work when you needed them because the **batteries had run out**?

Stairway/Exit

15A Outlet +
Power Out Light

Never be left in the dark again!

Keep critical rooms and areas like your stairs and hallways illuminated during a power outage with Swidget's Power Out Light.

The Power Out Light Insert turns on automatically and stays on for up to 1 hour when the power goes out.

With no batteries to change, the light will always be ready to use when you need it, so you'll never be left in the dark again.

Empower your home to detect water damage before it's too late.

HAVE YOU EVER...

- Come home after a long day, only to find that your sink, dishwasher,or washing machine had been **leaking all day**?
- Had your **basement flood** after a heavy storm and not realize for hours or days?
- Experienced a leak in your home while you were away on vacation and **didn't know it was happening**?
- Had to undergo costly home or cottage repairs due to **water damage** not being caught quickly enough?

Laundry Room

15A Outlet +
Water Leak Sensor

Protect your largest asset - your home - from leaks and water damage.

Monitor leak-prone areas of your home like the laundry room or kitchen sink, and receive instant alerts when water is detected so you can quickly mitigate damage.

Swidget empowers your home to protect you and itself.
